**HOW PRISONERS AIDED AMERICANS.** CORPORAL AND AVATOR CON. FIRM INFORMATION GIVEN TO AMERICANS BY GERMAN.

New York, July 22.—Another version of how the American army was aided by the two mysterious German prisoners of war, Alfred Schulz, a lance corporal, and Alvin Karpis, an aviator, who arrived here yesterday from France, and who are now being held at Hoboken pending receipt of orders from Washington to send them to the national capital, was obtained tonight from a non-commissioned officer, formerly attached to the intelligence branch of the army staff.

According to this "non-commissioned," the two prisoners, wearing German uniforms, mingled with prisoners captured by the Americans awaiting transportation to the rear, and after conversing with the prisoners were able to inform American officers with the information obtained by them under examination was correct.

This non-commissioned officer, who wished his name withheld, said he distinctly remembered one case in which Schulz dressed as a lieutenant, discovered the major had led. The major was hauled up out of bed and taken before American officers. Some German privates were led into the same room. Then after the major had been accused of lying, his insignia of rank was stripped from his uniform while the privates looked on, and he was sent to the cage for enlisted men for the night. The next day he was detailed, like an enlisted man, for the dirtiest jobs around headquarters.

"We had to be careful that Schulz' activities should not be discovered by the Germans. In one instance we had a man in the cages and the nature of his work was discovered by the other prisoners. They killed him before daylight with their bare hands. We never let Schulz in a cage after dark."

The non-com said it was during the St. Mihiel drive that Schulz, who claimed to have been a student at Heidelberg, first aided in an American offensive.

"When we went into the St. Mihiel drive," said the American, "Schulz sketched from memory the location of the four most troublesome German batteries which were guarding the outer circle of enemy defenses. So well did he give us the dope on these guns that our artillery put them completely out of commission before the drive was under way."

The American said Schulz was the officer against the Kaiser and the officers in the German army.

## TWO GERMAN TRAITORS WHO HELPED PERSHING

ARE SAID TO HAVE DELIVERED PAPERS REVEALING VON HINDENBURG'S PLANS.

Washington, July 22.—A story of the betrayal of the German high command through the efforts of the American military secret service and of the organization among German officers of a vindictive aimed at the lives of the traitors, was brought to light with the arrival a New York Monday of two German prisoners of war, assigned to the director of military intelligence, Washington, D. C.

According to information here the mysterious prisoners, who landed from the steamship Agamemnon under a heavy guard, formerly were German officers of high rank, occupying positions of great responsibility under von Hindenburg. Before the inauguration of the American offensive in 1918, operatives of the American military intelligence corps prevailed upon them through inducements which are not made public to deliver plans of German general staff, covering the proposed movements on the western front, probably lines of retreat, points to which stands would be made and other detailed information of inestimable value.

With these plans before him, General Pershing was able to lay out his

## CAPITAL STIRRED BY RACE RIOT

WASHINGTON PEOPLE ORGANIZE VIGILANCE COMMITTEE TO HANDLE NEGROES.

Washington, July 21.—The nations capital is going through the novelty of a man-hunt.

A long series of day-light hold-ups and robberies, topped off by six attacks on white women by negroes, has wound up with citizens taking alarm and forming a vigilance committee and by private subscription raising a reward fund which now totals more than two thousand dollars.

One negro under arrest has been identified by two of the white women, but the police say their evidence against him is only circumstantial. The negro made one futile attempt to escape while under questioning at police headquarters during which he denied his guilt.

The man-hunt has proceeded in the most fashionable part of the city and close by the homes of many well known men. One assault which took place not far from the celebrated Chevy Chase golf club aroused the men of the vicinity and nearby Maryland, raised a reward fund and placed that part of the city with descriptions of the negro.

For two days searching parties combed a woods immediately at the entrance of the national zoological park, where the negro was said to have been seen hiding. The scene is near Secretary Tumulty's house and the homes of other nationally known figures are nearby.

Meanwhile, other attacks on white women by negroes took place in other sections of the city and in the suburbs. The police have been searching for the negroes who were denounced for inefficiency in the conduct of affairs. There were threats that if the negro should be caught the searchers would take justice into their own hands.

The police have counseled searchers for law and order, and maintained that congress does not appropriate enough funds to make policemen available to adequately police the city. Police officers are inclined to charge the crime wave largely to the results of bootlegging by negroes.

So far as is known, the assailant of at least three women is unaccounted for. The man held is charged only with the assault upon two. There has been some talk of a congressional investigation of the police.

The sixth attack of the kind in four weeks was reported today by a police officer of the bureau of engraving and printing, the plant where the government makes stamps and currency, reported she had been seized by two negroes at a street corner, but beat them off with her umbrella and alarmed them with her screams.

As part of the police crusade to meet the situation, orders were given today to round up all negro loiterers on street corners who fail to give satisfactory accounts of themselves.

The large number of real estate transactions in Statesboro and vicinity during the week denote a healthy demand for real estate, and the price paid show confidence in the immediate future of the community.

In the city half a dozen or more sales are reported during the week while a number of places of suburban property have changed hands a very handsome figures.

Dr. C. H. Parrish sold his home on the same street, to Eli Kennedy, the price being the same as that received by Dr. Parrish. Mr. Parrish will also build a smaller residence.

H. C. Cone, the real estate man, bought from E. L. Smith the residence formerly occupied by Alex. Akins, also on North Main street, for \$4,800.

B. A. Aldred bought from C. E. Donaldson his home place in W. W. for which he paid \$3,100.

Mr. Math Proctor sold his home place in the same vicinity to W. E. Utsey, of Bamberg, S. C., the price being \$2,600.

## CITIZENS ENDORSE PROPOSED INCREASE

STATSBORO IS GOING TO HAVE AN INCREASED INCOME THIS FALL FOR SCHOOLS AND SCHOOL IMPROVEMENTS, AND FOR THE PAYMENT OF OUTSTANDING DEBTS.

This is to be done by increased taxes, and, strangely enough, the people of Statesboro have been asked to agree to this in their mass meeting in the court house last Friday evening.

It was a most pleasant outcome to a promised stormy session. Everybody went away pleased, and everybody had a better understanding of the situation.

This was the third meeting called to consider the question of an increase in the rate of taxation for Statesboro this fall. At the two other meetings, resolutions had been adopted to raise the rate, but only two dozen persons had attended each of these meetings, and a petition had been presented to the legislature protesting against the increase, which petition was signed by more than a hundred taxpayers.

The legislature, however, was thus thrust "up in the air." It looked like the people were opposed to the increase, and the legislators were to be governed by the wants of the people so far as they were known.

Therefore this third meeting was called for Friday evening with the understanding that the outcome of it was to be binding upon all concerned.

There was no packing of the house by those either for or against the proposition. Both sides just came together and had a heart-to-heart conference. It was shown that the increase was in debt. It was shown that these debts could not be paid off, but would naturally increase, without an increased income. It was shown, also, that the requirements of the school for immediate improvement were imperative, lest children should be sent away from the school at the coming term.

The opponents of the increase had recognized the necessity for additional funds this year, but had objected to the increase in the public clamor. When, therefore, the motion was made to allow an increase of one mill to the school fund and four mills to general purposes for the present year ONLY, it went through with a whoop and a shout.

Statesboro had just simply got together and decided that it may be a good idea to have the best school Statesboro has ever had.

There were indications that some members were inclined to kick over the traces at the attempt to raise the rate, but when it may be a sudden turn the cars of Mr. Groover and Mr. Akins collided while going at a rather lively gait. Miss Donaldson and Mr. Paschal were standing on the running-board of Mr. Groover's car and received the first impact. Mr. Paschal was bruised severely about the head and body, and one shoe was torn off and his clothing badly torn. Miss Donaldson was less seriously injured.

The front of Mr. Akins' car was demolished, and Mr. Groover's car was slightly damaged.

Amsterdam, July 5.—There is nothing

to prevent the former German emperor

or the former crown prince from

leaving Holland at their pleas-

ure, according to a high government

authority at the Hague, quoted by

Amsterdam Telegram correspondent.

"If either of them should leave,

however," the official quoted said,

"the surprise of their departure would

be unpleasant both for the Dutch

government and the Dutch people."

The Telegram correspondent said

the Dutch government intends to ad-

here strictly to a judicial point of

view and "to put it mildly, it is very

doubtful whether the extradition of

the kaiser and crown prince would

be permitted."

## ENFORCING AUTOMOBILE LAW

Judge Galt, McLendon

secretary of state, has

special duties with

his plans with

may Be Repetition of 1917-18

Conditions Next Winter Says

Geological Survey.

MINES IDLE WITHOUT ORDERS.

Those Who Delay Ordering

Longer May Not Get Their

Fuel Later On.

The United States Geological Survey

announces from Washington, the probability

of another general coal shortage

next fall and winter. The an-

nouncement is based, the Survey

states, upon a nationwide study of

conditions in the bituminous field.

Unless steps are taken at once, the

Survey says, to place the mines upon

a basis of increased production there

is every prospect of a repetition to

some degree of the situation that pre-

vailed in the United States during the

winter of 1917-18.

The only way production can be stimu-

lated at the present time, it is said, is

by placing orders with the mines for

coal which will be needed later on.

Production during the first five months

of the year, reads the statement, "fell

57,202,000 net tons, or approximately

25% below production during the first

five months of 1918. Mines are produc-

ing coal now at the rate of 6,000,

000 to 8,000,000 tons a week. An av-

erage output of 10,700,000 tons a week

must be maintained from June 1 to

January 1 next if the country's esti-

mated needs of 500,000,000 tons this

year are to be met."

At no time during this year has the

rate of production approached the re-

quired tonnage. The tendency on the

part of buyers to hold off placing their

orders is limiting production, as the

mines cannot store coal at the point of

production, and when the rush of

orders for the winter's needs comes

next fall there is grave danger that

the mines, with depleted labor forces

and the probability of less adequate

transportation, will be unable to meet

the demands. The result of such a

situation would be an insufficient supply

for the requirements of domestic con-

sumers, public utilities and industrial

uses generally.

"It is believed that requirements for

this year's winter, a Survey statement

to Fuel Administrator Garfield, "will

be about 530,000,000 tons of bituminous

coal, of which approximately 30,000,000

tons have been used from stocks ac-

cumulated last year, leaving 500,000,000

tons to be produced. Of this 500,000,

000 tons 178,000,000 tons were pro-

duced during the first five months, leaving

322,000,000 tons to be produced in the

remaining 30 weeks, or an average of

10,700,000 tons a week.

"Thus far this year production has

been at the rate of 6,000,000 tons a

week. In 1918 production was at the

rate of 11,300,000 tons a week.

"This production will be difficult of ac-

complishment. The capacity of operat-

ing mines at the present time with labor

now on the payroll is about 10% lower

than it was last year. This deficiency

may be made up in part or wholly by

the mines have orders sufficient to run

them five or six days a week unless the

threatened excess of foreign-born labor

occurs.

May Be Car Shortage.

"Present wage agreements between

operators and miners expire with the

proclamation of peace by the Pres-

ident. A suspension of mining opera-

tions while a new wage agreement is

being negotiated would, of course, seri-

ously interfere with the production of

coal and if it should occur during the

fall would cause a panic among buyers

and consumers of coal."

There is no use in gambling upon

this or any other contingency, fuel ad-

ministration officials say. The firm or

individual who wants to be sure of an

adequate coal supply next winter can

be certain by buying coal now. There

is no other way such assurance

can be obtained. Transportation also

promises to be a limiting factor if the

flood tide of demand comes at a time

when the country's record crops are

being carried. In some districts it

would appear certain that, notwith-

standing the utmost endeavors of the

Railroad Administration and the util-

ization of its experience last fall, car

shortage will be a cause limiting bitu-

minous coal production, and for that

reason it is problematical whether the

expected production of 500,000,000 tons

can be attained this year.

Shortage of labor already is a fac-

tor that is cutting down the output

of some coal producing sections, accord-

ing to the Survey's report. The opera-

tors report that from 30,000 to 40,000

foreign-born miners expect to return to

Europe as soon as they can get pas-

sage and that many have already re-

turned. If continued this movement

will be capable of producing but one

result—a reduction of the amount of

coal mined in districts where the mine

labor is largely foreign-born, and there

are many such districts.

He who needs coal should hesitate

no longer. Now is the time to buy

coal.

## THIS IS YOUR OPPORTUNITY IN

## Oil and Gas

BUT LIKE ALL GOOD OPPORTUNITIES IT MUST BE SEIZ-  
ED NOW TO BE REALIZED TO ITS FULL VALUEFROM HOME FOLKS  
TO HOME FOLKSThis is an investment proposition, not from a group of promoters a  
thousand miles away, but from homefolks to home folks.You have already been told in previous advertisements, of the ac-  
cidental discovery of seepage on the plantation of W. R. Beach in  
the seventy-ninth district of Washington county, and of the forma-  
tion of a company for the purpose of locating the pool of oil that we  
believe is responsible for this seepage.These lots have been selling rapidly, but in order that we may buy  
as quickly as possible the machinery to explore the find thorough-  
ly we urge every loyal Georgian who wants to share in the profits of  
this development, to give us immediate support.WE WANT THE DRILLER TO GO TO THE SOURCE OF THIS  
SEEPAGE, and as quickly as possible. The chemists say the oil is  
there, professional oil men say it is there, and prominent Georgia  
business men are backing their judgement.THESE GEORGIA BUSINESS MEN ARE ALL WASHINGTON  
COUNTY BUSINESS MEN. The directors of the Middle Georgia  
Oil and Gas Co., are men of undoubted standing and integrity.

## OUR PLAN AND OFFER

WE WILL SELL YOU LOTS IN THIS PROPOSITION FOR \$35  
each, which are large enough for drilling sites. These lots are  
yours in fee simple, to dispose of as you see fit. We cannot say  
what its value will be if we are successful at first drilling. In other  
places where oil has been found, the profits have been fabulous.Our apurtenance gives to each lot owner, according to number of  
lots purchased, a pro rata division of ALL profits of the company,  
including oil, gas or minerals found on these lands, not only  
in the test wells to be drilled, but ALL the operations of the com-  
pany from start to finish, and is so fixed that there could be no ma-  
nipulation or big fish eating little ones, as we express it, and so of-  
ten proven true; but in this case, under our plan, it is impossible.OUR SUCCESS is based on the very best evidence that can be  
found. A SEEPAGE of oil and gas sufficiently strong to stand  
chemical analysis. All men in the business agree there can be only  
one source from which this can come—A POOL OF OIL.If you are in on this pool when oil is struck, ten of these lots will  
mean independence for you and your children.If you purchase lots from us and afterwards visit this seepage, with-  
in thirty days, with our local representative at Sandersville, W.  
Roger Beach, and make claim that we have misrepresented the  
proposition in our official literature, or otherwise, he will have au-  
thority to draw on us for themount of your purchase, includ-  
ing time and railroad fare.ACT TODAY—The greatest fortunes in the world were built up  
by investing in unproven fields. The foundation of some of the  
largest fortunes was built up on investments of less than \$300 in  
oil. Why hesitate?Middle Georgia

Housework First Time in  
Five Years — Gains Thirty-  
Five Pounds."I had rather see my wife well and  
happy like she is since taking Tanlac  
than to have all the money in the  
world," declared Henry Raspberry,  
of 1812 Campbell street, Kansas City,  
Mo. Mr. Raspberry, who has recently  
been employed as a foreman by the  
Amour Packing Company, was for-  
merly in the service of the Kansas  
Missouri and Texas railway."Before my wife took Tanlac," con-  
tinued Mr. Raspberry, "she had rheu-  
matism in her limbs so bad she could  
not even dress herself. I would have  
to help her out of bed in the morn-  
ing and put her clothes on and so on.  
Her stomach was in such a bad con-  
dition that she could hardly digest any-  
thing. The gas on her stomach would  
cause intense pains in her side and  
such awful spells of palpitation of the  
heart that she could hardly stand it.She was extremely nervous, her  
breath was short and very offensive,  
and she had fallen off in weight until  
she was hardly more than a frame."At the time she began taking Tanlac  
she only weighed eighty-seven lbs.  
and had not been able to do any of  
her housework in four years. But  
she now weighs one hundred and  
twenty-two pounds—and is as healthy  
and active as she was thirty years  
ago. The rheumatic pains have all left  
her and she can do all her work and  
look after the family without the least  
trouble. She can eat meat, pickles,  
all kinds of vegetables and anything  
else she wants and never have a sign  
of indigestion. She is not the least  
nervous any more, sleeps like a child  
every night and is as well as she ever  
was. I can't find words to express my  
thankfulness for what Tanlac has  
done for her. It is nothing short of  
wonderful."

## CHICAGO HAS RIOT AMONG RACES

SEVEN PERSONS KILLED WHILE SCORES ARE WOUNDED IN A DAY OF TERRORISM.

Chicago, July 29.—Despite fresh outbreaks tonight in Chicago's race war, city officials at midnight professed themselves satisfied with what the police were doing and several thousand state troops remained in armories.

At that hour the death toll totaled twenty-seven, two negroes having died of wounds received Monday.

The injured list has been swelled by uncounted scores and several of the wounded may die. Disturbances were reported from the south side "black belt," from an Italian district on the west side, and from the near north side.

## INCREASE OFFICER PERSONNEL OF ARMY

Washington, July 28.—Without a record vote, the senate today passed and sent to the house the administration bill authorizing an increase from 9,500 to 18,000 in the number of commissioned officers to be retained in the army this year.

## SHIPLOAD OF BABIES HEADED FOR U. S.

GEORGE WASHINGTON BRINGS FRENCH WIVES AND BABES OF AMERICAN SOLDIERS.

The steamship George Washington simply cannot stand ordinary routine steamship duty. She must always be doing something extraordinary or bizarre, such as acting as a private yacht for the President and Col. House or trying to bump the Emperor of the sea. Now she is going to be the "baby ship" of the transport fleet, says the New York Sun.

## COPY OF TREATY SENT TO SENATE

PRESIDENT WILSON URGES RATIFICATION OF TREATY AS A PROTECTION TO FRANCE.

Washington, July 29.—The special treaty with France, promising immediate American aid to that republic in repelling any unprovoked attack by Germany, was sent to the senate today by President Wilson.

In his message urging ratification the president declared the promise a "temporary supplement" to the treaty with Germany and the league of nations covenant, designed to give to France protection in an emergency without awaiting the advice of the "longer to act." He pointed out that a similar promise had been made by Great Britain, and said that by the obligation the United States had partially discharged a debt to France, which "nothing can pay in full."

The senate, where the president's failure to submit the treaty sooner had been under repeated fire from republican members, received the message in open session and referred the treaty without discussion to the foreign relations committee.

There was no reference in the message to the senate criticism, which was based on a clause of the treaty requiring that "it be submitted to the senate of the United States at the same time as the treaty of Versailles, presented by the President on July 20."

The message did refer to this clause, however, saying that it was provided for in the treaty by the subject of consideration at the "same time," and adding that as opportunity had been offered to examine the Versailles treaty, it was opportune to present the other.

Departing from his custom of delivering his messages to congress in person, the president transmitted the treaty and his request for ratification by messenger. Both became public by the senate's unanimous agreement to remain in open session while the message was read and to print it and the treaty in the record. The request that this course be followed was made by Chairman Lodge of the foreign relations committee.

Although the committee has made no definite plans, it is likely that the treaty will be taken up by it within a few days and considered jointly with the Versailles treaty. Before this is done, however, the committee will hear several of the experts who have advised the American peace delegation on economic subjects. Bernard Baruch, the first of these to be heard, will appear at a public hearing on Thursday.

Some of the points that a long time ago, say for thirty to ninety years, the site would probably bring the state more revenue than this, because it is located in the heart of a rapidly growing business section which is being built up with substantial business structures. The five year lease would not justify the erection of a business building which would make it profitable as an investment in that time, it is pointed out. However, the bill has just been introduced.

The measure of Mr. Bale would authorize the lease of quarters for the governor not to cost more than \$5,600 a year and would give that official a furniture account of \$5,000.

## GEORGIA'S GOVERNOR MAY GET NEW HOME

LEGISLATURE ASKED TO LEASE PRESENT MANSION AND PUT EXECUTIVE ELSEWHERE.

Atlanta, Ga., July 29.—Real estate men are speculating whether or not a lease for the governor's mansion site can be negotiated for \$25,000 with the short term provision for five years as provided in the resolution introduced by Representative Bale, of Floyd county.

Some of them point out that a long time ago, say for thirty to ninety years, the site would probably bring the state more revenue than this, because it is located in the heart of a rapidly growing business section which is being built up with substantial business structures. The five year lease would not justify the erection of a business building which would make it profitable as an investment in that time, it is pointed out. However, the bill has just been introduced.

## THREATS IN LETTERS TO TWO GOVERNORS

GOVERNOR DORSEY GETS ONE FROM "S. S." DEMANDING HIM TO PUT END TO LYNCHINGS.

Washington, July 28.—Two threatening letters, one addressed to the Governor of Georgia and the other to the Governor of Mississippi, were taken by the police from Willie Lannegro, negro, alleged slayer of a 17-year-old white boy during the riots of last week. The negro denies authorship of the letters and claims he found them.

The writer of the letter referred to himself as the "S. S." of the United States, taken by the police to mean sharp shooter. The letter to the Governor of Georgia reads:

"Dear Sir: You are the Governor of the state of Georgia and I want you to consider that the negro was drafted during the world-war to fight for this country as well as the white man, and I want you to understand that this thing of lynching in the state of Georgia must be cut out."

"We went and killed Germans for your rights, and we can also kill Americans for our rights, and if I hear any more of the measures of the state of Georgia, I will come quickly and the people will weep after I leave, because I sweep from the cradle up. I will remember you this time. Why did you let this man be lynched in May?"

In the letter to the Governor of Mississippi the writer repeats the part the negroes played in the war and what they will do for their rights, and concludes:

"Sir, this thing of lynching of negroes in the state of Mississippi must be cut out. I am the negro 'S. S.' In the opinion of the masses, the Governor of Georgia the writer wrote: 'From the S. S. of the negro race.'"

"The charge that it banishes God from the schoolroom and that it is an assault upon religion," said Senator Smith, "will be tolerated only by one who opposes public education conducted by state or local authorities and who opposes all schools except denominational and parochial schools."

Attacks made on the bill adopted by Senator Smith were resolutions according May 30th at the Federation of Catholic Societies convention at New Orleans and of the Benedictine National Education Association in Peru, Ill., July 1st. He also stated that Rev. E. D. L. McDonnell, S. J., of Loyola College, Baltimore, had made baseless charges against the bill in an address June 16th, and said "it is difficult to understand how a preacher of the gospel, who preaches that the Christian should have been their author."

Whether this will be done, depends on the amount of paving funds in the treasury. When the present work is completed, which will be during the next ten days.

The original amount of bonds was \$30,000, which was to pay for one-third of the paving proposed, the other two-thirds to be paid by the abutting property owners. The McCray Company contracted to do the paving for approximately \$54,000, of which the city's one-third would be about \$18,000. After the contract was entered into, some changes were authorized, which would increase the cost possibly \$10,000. Besides this, the city will probably have to carry the big end at all street intersections, which may bring her share of the cost up to \$22,000 to \$24,000. This would leave a balance of possibly \$6,000 to \$8,000 paving funds in the treasury.

It is believed that Vine street may be paved for \$15,000 or \$20,000, of which one-third would be chargeable to the city. This being true, it is believed that the work can be done with the funds already in hand. An estimate of the cost will be asked for immediately with a view to commencing as soon as the present contract is completed.

Vine street is that on which the cotton warehouse is located, and is one of the most important in the city from a standpoint of traffic.

Speaking of her pleasant experiences with war brides and war babies, Miss Wakefield said:

cienne Stewart (a beauty), and Alphonse Nelson.

Miss Wakefield, upon seeing that the war brides fulfill the requirements of the immigration authorities, escorts them to the hostess house conducted by the Y. W. C. A. at Lexington avenue and Forty-first street, and the brides are met at the pier by relatives. At the hostess house war brides are entertained until arrangements can be made for their departure to the home towns of their husbands.

## HOUSE REPEALS WAR TAX ON SODA WATER

Washington, July 28.—After nearly two hours' debate and while the temperature in the chamber was hovering around the 100 mark, the house today voted to repeal the 10 per cent tax on soda water and ice cream.

## CATPOOLS RAPPED BY SENATOR SMITH

ATTACK ON EDUCATIONAL BILL EXPECTED ONLY BY LEADERS OF THE DARK AGES.

Washington, July 28.—Senator Smith, democrat of Georgia, declared in the senate today that the criticism by Roman Catholic clergy and organizations that the Smith-Towner bill, proposing establishment of a department of education would result in government control of education, was unfounded.

"The claim that the bill takes away the right of parents to educate their children is false," said Senator Smith. "The charge that this bill would banish God from every school is without the slightest foundation. The bill can only be considered an assault upon religion by those who oppose public schools and who believe ignorance on the part of the masses increases religious faith. The charge is really an attack upon public education and shall not be permitted to hide behind an expressed attack on this bill."

"These attacks might have been expected of leaders of thought in the dark ages; at present time they are surprising and shocking."

"I cannot believe that the real leaders of the Catholic church or the rank and file of its members in the United States are opposed to public schools, or to any opportunity being given to every child of obtaining an education at the public expense."

The bill, Senator Smith explained, would not prevent parents from placing their children in private or denominational schools and is designed to aid in the giving of free education to all children who apply.

"The charge that it banishes God from the schoolroom and that it is an assault upon religion," said Senator Smith, "will be tolerated only by one who opposes public education conducted by state or local authorities and who opposes all schools except denominational and parochial schools."

Attacks made on the bill adopted by Senator Smith were resolutions according May 30th at the Federation of Catholic Societies convention at New Orleans and of the Benedictine National Education Association in Peru, Ill., July 1st. ## MORE BIG TRADES IN REAL ESTATE

WEEK'S ACTIVITIES ONLY LITTLE BELOW RECORD ESTABLISHED LAST WEEK.

The number of real estate transactions reported last week in these columns was the greatest, possibly, in the history of Statesboro, not only from the standpoint of number but in volume as well. This week is only a little way behind, however, and the evidences of life in real estate circles continue to speak eloquently of the confidence felt for Statesboro's immediate future.

As reported the sale by Dr. C. H. Parrish of his home place on North Main street to J. W. Franklin. Within a couple of days he had already bought another lot on the same street, being that adjoining the home of Mr. E. H. Kennedy. The lot was bought from Dr. Paul Franklin for \$2,900.

The same day Dr. Franklin bought from Grover Brannen a handsome lot on Savannah avenue, adjoining the home of Mr. Percy Averitt, the price being \$3,900.

Morgan Atkins bought the home of Mr. E. J. Brown on South Main, opposite the J. P. Williams home, the price being \$7,000.

Dr. R. J. Nichols, who last week was reported to have bought two nice pieces of property, is again in the list of purchasers this week, having purchased the valuable farm tract in West Statesboro, formerly known as the W. T. Smith property, the price being \$11,500.

While real estate transfers are going on, activity in other lines of business have developed as well. The firm of Aldred & Collins also did some changing about. Mr. Collins retiring from the firm and taking the entire store of the Statesboro Dry Goods Company, which has operated for the past year since buying out M. Seligman when he was drafted for army service.

In addition to this, Patrick brothers the refreshment men, did some trading among themselves. D. L. Patrick buying the interest of J. M. Patrick in their business.

There may have been other transactions of which we have not been informed. However that may be, the spirit of trading is in the air and we expect a continuance of prosperity in every line of business.

SAMPLE STALK OF WELL-FRUITED UPLAND COTTON

A stalk of upland cotton with 41 well developed bolls was left at this office during the week by Mr. J. B. Smith, who farms on the Gay place. He stated that this is a sample of the kind of crop he is growing this year on that farm, and that the patch contains 90 acres. Those who have seen the stalk left here declare that Mr. Smith will possibly make more than a bale to the acre. He is a good farmer and certainly can beat the boll weevil if anybody can.
